Welcome Fall!

Nothing feels more refreshing than the crisp air of fall after three months of summer heat!

Fall not only brings the beauty of falling leaves, but has been scientifically proven to be good for your health.

During fall our bodies get more rest. Although we only gain 1 hour of sleep, it does wonders for a person's overall health.

Sleeping allows our bodies to recharge both physically and mentally.

In addition, fall makes for the perfect time to get outdoors and increase the physical activity our bodies need.

Outdoor activities offer both a direct health benefit and a great emotional boost that comes from being in the midst of the beautiful colors this season produces.

Embrace the change of the season!

Building Reminders:

Please make sure you are disposing of pet waste in the appropriate receptacles!

Waste bags should NOT be disposed of in the trash cans near the building entrance.

Please dispose of pet waste in the receptacles on the dog walk or in the dumpster.

Thank you for your cooperation to ensure a safe, clean and sanitary environment for all residents and visitors.

Outdoor Critters:

With the arrival of fall we may see some more outdoor critters.

Please **DO NOT** throw food outside for the birds and squirrels.

Doing so will attract the unwanted critters to our area and can create a safety issue.

Thank you for your cooperation!

Window Completion:

The window project is complete!

Thank you for your cooperation!

We are very pleased with how they turned out!

Hope you are enjoying them as well!
